

EURO

KEVLAR CERAMIC

Features and Benefits:

- A** Shimtech™ advanced shims to reduce vibration and brake noise.
- B** Kevlar Ceramic Friction formula for outstanding braking performance in all conditions.
- C** Ultra low dusting pads designed to keep your wheels clean.
- D** Slotted and chamfered friction material to reduce brake noise.

Pedders SportsRyder EURO Kevlar Ceramic brake pads are formulated for the spirited performance standards and design aesthetics that are unique to European makes. Most European drivers seek a driving experience using vehicle-handling techniques that are focused on braking. This driving style is unforgiving on brake pads making quality critical. Pedders SportsRyder Euro brake pads successfully addresses performance specific requirements of European makes, providing vehicle control and response as the manufacturer intended.

Features and Benefits:

- Specifically engineered to hold a high coefficient of friction under extreme usage.
- Positive moulded and hot pressed at over 6,000 psi ensuring consistent friction density.
- Low noise, consistent performance, longer lasting and rotor friendly.
- True Kevlar ceramic formula that keeps wheels cleaner.
- 20% more stopping power.
- Shimtech dual rubber backed shims offering 6 times more noise reduction as compared to steel shims.
- Thermal scorched for fast break-in.
- Environmentally friendly with low copper content to comply with California and Washington regulations.
- Outstanding braking performance.
- Approved ECE R90 regulation.
- Kevlar-enhanced to prevent high temperature glazing resulting in brake fade.
