## TRAK RYDER 4WD SUSPENSION

### Pedders TrakRyder Foam Cell Shock Absorbers

Part #	Make	Model	F/R	Description
151211	Nissan	Navara 05-12 D40 2WD & 4WD Ute & Dual Cab	R	Rear Foam Cell Shock Absorber

Pedders is proud to release its latest addition to its suspension range of products to suit the Nissan Navara D40 model. Our foam cell TrakRyder shock absorber is now offered for the rear of the Nissan Navara and owners of this fantastic vehicle can now enjoy the benefits of this product.

#### The 9500 series foam cell virtually eliminates shock fade:

-By allowing full oil contact with both the inner and outer housings the TrakRyder 9500 series foam cell shock provides larger cooling areas to improve shock performance and durability.

-By replacing the normal gas section, the TrakRyder 9500 foam cell shock eliminates the mixing of the oil and gas which ensures optimum damping control in all conditions.

- Extra-large 40mm bore and piston is much greater than original equipment size and provides an even larger increased oil capacity for greater ride improvement.
- Heavy Duty twin-tube construction technology & heavy duty reinforced double welded mountings for long term durability.
- Rugged multi-purpose design improves stability and ride comfort for touring, load carrying, towing and 4wd applications.
- Advanced control for a comfortable ride and precise handling.
- Ideal for standard or raised height 4WD's and matched to Pedders range of TrakRyder springs.
- Individually shock dyno tested for quality assurance.
- Severe off road vehicle compliant
