GVM Upgrade Solutions

TO SUIT

TOYOTA LANDCRUISER 76/78/79 SERIES

If your Landcruiser carries heavy loads or if you are serious when it comes to packing equipment for the journey you take then look no further.

When your Landcruiser is fully loaded for the long haul or if you're carrying the tools of your trade, chances are that your vehicle may be overloaded beyond its GVM and you may not even know it. Common items such as tools, tool boxes, cargo, bull bars, winches, towbars, recovery gear and even your passengers all combine to increase the overall gross vehicle mass. Its also important to note that if you have purchased a cab/chassis, the weight of the tray is not part of the "curb weight". Every vehicle on our roads today has an official legally allocated gross vehicle mass rating (GVM). The GVM rating is a legal weight figure (in kg's) that results in the total maximum allowable weight of a vehicle when fully loaded. It's essentially the maximum legal weight, that you can safely drive at for that particular vehicle. Pedders now offer a GVM upgrade solution for selected Landcruiser models to assist in compliance for GVM ratings. The reason for this solution is for the following requirements: O.H.&S. vehicle insurance, warranty issues and being road legal. Through exhaustive and detailed testing, the Pedders GVM Upgrade Kits have been approved by the Federal Department of Infrastructure and Transport.

TOYOTA LANDCRUISER 76/78 AND 79 SERIES GVM UPGRADE SOLUTIONS FROM PEDDERS

- Support network of over 120 outlets Australia wide.
- All components installed as part of a Pedders GVM upgrade package are backed by a Pedders 2 Year/40,000kms Nationwide Warranty.
- Toyota Landcruiser 76/78 and 79 series certified GVM rating of 3780 kgs (inc 5door Wagon)
- Ideal choice for towing caravans, horse floats, camper and general trailers who need that load carrying capacity.
- Great for the serious off road driver fitted with bull bars, winches, recovery equipment and underbody protection looking for compliance to the federal GVM laws.
- When the GVM Upgrade kit has been installed to a new vehicle by the trained Pedders technicians at a Pedders store, a compliance plate will be fitted. The new vehicle can now be registered with new increased G.V.M. This procedure will allow the vehicle to be legally used in all states of Australia. For vehicles that have already been road registered, the vehicle is to be inspected by an authorised Automotive Engineer in that state and be issued with a compliance certificate.
- So, if you are planning ahead with an impending new vehicle purchase, or have realised that your current vehicle isn't quite handling the load, we have the solution.
