## **TRAK** **RYDER** 4WD SUSPENSION

### Key Features & Benefits:

- The Pedders 4" Lift kits are supplied as a kit. No extra parts are required. Simply fit the parts, get the vehicle wheel aligned and you're ready to go!
- The 9500 series foam cell eliminates shock fade. Extra-large 40mm bore and piston is much greater than original equipment size and provides an even larger increased oil capacity for greater ride improvement.
- The TrakRyder raised extra heavy duty coil springs are made from premium quality grade steel, are stress relieved and 100% QA inspected.
- All sway bar links, alignment products, extended brake hoses plus assorted chassis parts have all been designed, produced and tested off road to enhance the off road experience. All items included are more suited to rough terrain driving conditions.

Note: Vehicles can be further improved with the fitment of heavy duty/longer trailing arms, draglinks and heavy duty TrakRyder big bore steering dampers.. See in-store for further details.
