# BUSHES BUSHES BUSHES BUSHES BUSHES

## FOR THE FOLLOWING MODELS:

| MAKE   | MODEL      | DESCRIPTION                                    | PART NUMBER |
|--------|------------|--|-------------|
| Nissan | Pulsar N16 | Caster Adjusting Bush                          | EP6502      |
| Nissan | Pulsar N16 | Standard Replacement Bush                      | EP6498      |
| Nissan | Pulsar N16 | Standard Setting and One Caster Adjusting Bush | EP6499      |

### EP6502

The zippy little N16 Nissan Pulsar is made better by Pedders new EP6502 caster bushes.

The new EP6502 castor bushes are now in stock and allow 0.6 deg +/- castor adjustment on both left and right hand sides.

### EP6498

The EP6498 provides better feedback to the driver than the standard rubber version. It also gives better directional stability & more precise steering input.

### EP6499

The EP6499 offers a standard castor setting on one side and an offset bush for the other while giving you the benefits of the previously released 6502 and 6498 bushes.

Having the ability to offset castor now allows you to stop the vehicle pulling to the left thus providing the driver with better steering response.

### POLYURETHANE

The benefits of Pedders polyurethane bushes are:

- Polyurethane is acid and oil resistant.
- Polyurethane also provides a higher compression rating than the O.E. bush.
