### Pedders TrakRyder Spring Ride Heights:

Standard: Standard ride height TrakRyder springs offer original equipment ride height.

Raised: Raised ride height TrakRyder springs offer 1.25-1.75" (30-45mm) lift.

Loaded: Loaded ride height TrakRyder springs offer 1-1.5" (25-35mm) lift when fitted along with either a bull bar, winch and/or other accessories.

NOTE: Quoted ride heights apply to this range of TrakRyder Coils only. A choice of TrakRyder coil springs are included in of the aforementioned kits. Choose from standard ride height, raised ride height or loaded ride height. Please nominate your choice of springs when ordering.

## Pedders TrakRyder 4WD Heavy Duty EziFit Spring and Foam Cell Shock Kits:

It's here! A product that we have all been waiting for! The "All New" Pedders TrakRyder 4WD Heavy Duty EziFit Spring and Foam Cell Shock Kits.

The Pedders TrakRyder 4WD Heavy Duty EziFit Spring and Foam Cell Shock Kits were designed, developed and manufactured to provide precise control without compromising ride comfort. Supplied as a complete assembly of matched suspension components, the TrakRyder Ezi Fit Spring and Foam Cell Shock Absorber kits are suited for all types of driving conditions – whether it is for severe off road or simply driving to work. One of the added benefits of these kits is that you can choose your ride experience by selecting your preferred coil spring type to match your driving needs. A choice of - Standard, Raised or Loaded ride heights are available to order with various kits.

### All New Design

The "All New" design Pedders TrakRyder Foam Cell shocks are made with a huge 40mm bore. This allows it to control the undulations of the road which is ideal for greater driver and passenger comfort. The Foam Cell virtually eliminates shock fade (loss of effective shock absorber performance due to cavitation and aeration), therefore these units will work harder for longer.

Pedders TrakRyder Coil Springs are produced under a strict manufacturing process, and this ensures that Pedders TrakRyder Coil Springs exceed original equipment tolerances and are equal to or better than other manufacturers in the world for consistency, loaded ride height and reliability.

Of particular interest comes the release of part numbers 807101 807201 807301 to suit the Toyota Hilux 4WD 2005-On and the 807102 807202 807302 to suit the Toyota Prado 120 Series. The TrakRyder foam cell shock absorbers in these kits have been designed with smoother valve rates to offer an even more comfortable driving feel than their other TrakRyder equivalents (part numbers 807105 807205 807305 to suit the Toyota Hilux 4WD 2005-On and part numbers 807106 807206 807306 to suit the Toyota Prado 120 Series).
