TRAK RYDER 4WD SUSPENSION

Pedders TrakRyder Foam Cell Shock Absorbers

| Part # | Make | Model | Model Code | F/R | Description |
|--------|------|-------------|------------|-----|-----------------------------------|
| 151233 | Jeep | Wrangler JK | 2007-On | F | Pedders TrakRyder Foam Cell Shock |
| 151234 | Jeep | Wrangler JK | 2007-On | R | Pedders TrakRyder Foam Cell Shock |

Pedders latest additions to its range of premium replacement shock absorbers now extends to the Jeep range of vehicles. Models such as the Wrangler JK series can now benefit from the fitment of Pedders premium Foam Cell TrakRyder Shock Absorbers.

The foam cell technology found in the Pedders TrakRyder foam cell shock absorber virtually eliminates shock fade, by allowing full oil contact with both the inner and outer housings. The TrakRyder foam cell shock provides larger cooling areas to improve shock performance and durability. The TrakRyder foam cell shock eliminates the mixing of the oil and air which ensures optimum damping control in all conditions. The extra large 40mm bore and piston is much greater than original equipment size and provides an even larger increased oil capacity for greater ride improvement.

Features and Benefits:

- Sintered Iron Piston
- Massive 40mm Bore
- Cellular Foam Membrane
- Hydraulic "Top Out" Buffer
