## Pedders Does SEMA In Style... No Bull!

Following on from our official suspension coil over kit supply to the Rockstar brand car as built by West Coast Customs (WCC) the management team from Pedders Suspension had the chance to meet and greet two of the key staff members from West Coast Customs at SEMA.

Pictured here we see Pete Basica (Pedders USA LLC), Mark Pedder (Pedders Suspension Australia), Ryan Friedlinghaus (West Coast Customs) & Scott Pedder (Pedders Suspension Australia).

Pictured from left to right we have Clayton White (Pedders Suspension), Sean Mahaney (West Coast Customs) & Adam Gillick (Pedders Suspension).

The WCC staff had some great feedback about the new eXtreme XA coil overs. According to Sean (WCC) the kit fit nicely in the Rockstar car and made it handle eXtremely well. Sean says "When we took it on the track the car cornered like it was on rails."
