PEDDERS
SUSPENSION

Australia's Number 1

Shock Absorber, Steering and Suspension Specialists

Pedders Lead the way in NASCAR...No Bull!

Pedders is proud to have contributed to the pair of new Camaro SS NASCAR Pace Cars in the USA series. The Camaro is an awesome vehicle off the showroom floor based on the times recorded running the Nurburgring (1).

A Camaro SS ran the Nürburgring in 8:20. An 09 Corvette ZR1 did it in 7:26.4. It takes a special car to run better times than a Lotus, BMW and Porsche. When GM asked Pedders to deliver a more menacing stance for the Indy 500 and new NASCAR Pace Cars, we delivered a bit more than requested.

These gorgeous machines run on Pedders SportsRyder eXtreme XA Adjustable Coilovers Part # 160086 (2), Sway Bar Solution B (3), EP1200 (4) sub-frame and EP6579 (5) radius bush inserts.

CHEVY RACING AT DARLINGTON RACEWAY -- JEFF CHEW, MARKETING MANAGER, NASCAR, CHEVY RACING SAYS:

"We're looking forward to bringing the all-new Team Chevy Racing Display to Darlington Raceway for the first time. There will be plenty for the entire family, like green-screen photos with their favorite Chevy driver, and the opportunity to learn more about Chevrolet's 2010 lineup of award-winning cars and trucks. Plus, on the track, we will have something new for the fans as Chevy debuts a pair of new Camaro SS custom pace cars."

Pedders is also the official sponsor to V8 Supercars in Australia as well as the official Naming Rights sponsor of the Pedders Safety Car and Pedders Course Car.(6)
