Pedders Suspension has recently expanded it's range of MAZDA passenger vehicle parts to now include Urethane Control Arm Bushes to suit the above mentioned makes and models. Upgrading your existing rubber control arm bushes to Pedders urethane bushing will assist in providing a 'tighter' feel to your car which is preferable for drivers who require more feedback from their vehicle when driving. These products can be installed as an upgrade and not necessarily just to replace worn parts. Pedders Urethane bushes provide better handling, extended bush life & improved performance. Front control arm caster alignment kits are also available.
