Pedders TrakRyder Springs

Part #	Make	Model	F/R	Description
270050	Toyota	Prado 09-On 150 Series	F	Front Spring Standard
280050	Toyota	Prado 09-On 150 Series	F	Front Spring Raised
290050	Toyota	Prado 09-On 150 Series	F	Front Spring Raised for Heavy Applications

Pedders Suspension has recently released some new TrakRyder heavy duty front coil spring part numbers to suit the Toyota Prado 150 Series. These new springs are also matched in ride height with our existing range of rear springs to suit this model vehicle.

Pedders produces its coils springs in Melbourne Australia to the highest possible standards following ISO 9001 International Standards, ISO 14001 International Standards & AS/NZS 4801 Safety Standards. All Pedders springs are produced according to a strictly controlled design, manufacturing and testing process that ensures Pedders' coils exceed original tolerances and are equal to or exceed the best in the world in consistency of rate, loaded height and reliability. This insures a quality product in every coil manufactured.

Of particular interest comes the Pedders 290050 front raised TrakRyder springs for heavier applications. This is suitable for those wanting to also maintain a raised ground clearance on their 150 Series Prado's that have a bull bar, winch and other heavy accessories fitted to the front of the vehicle.

QUALITY WITHOUT COMPROMISE

- Premium quality grade steel
- Stress relieved and 100% QA inspected
- Load height tested
- Off road comfort, on road control
- Heavy duty units provide precise spring rates needed for ride control
- 2 Year/40,000km warranty
