Pedders Torsion Bars			
Part #	Make	Model	F/R
4725	Ford	Ranger 4WD 06-11, 2WD Hi Rise 06-11	F
	Mazda	BT50 4WD 06-11, 2WD Hi Rise 06-11	F

Pedders suspension is proud to announce the availability of TrakRyder heavy duty torsion bars to suit the Ford Ranger and the Mazda BT50. The market research undertaken by Pedders, suggests that when accessories such as, Bull Bar, Winch, extra Driving Lamps or a Dual Battery System are fitted to the front of the Ranger or the Mazda, the ride height can decrease up to 40mm. These accessories also can add as much as 100 to 150kg. to the front axle weight and the standard torsion bars are not designed to carry this extra load.

We are all aware that the bars have an amount of adjustment, but the problem which is encountered is that, after a short amount of time the vehicle could "sag" again, because of the extra weight and may cause permanent damage.

Pedders Suspension have a solution, the fitment of our Heavy Duty TrakRyder custom made torsion bars to your Ford Ranger or Mazda BT50. So, why should you fit Pedders TrakRyder Torsion Bars to your Ford Ranger or Mazda?

**This is why: Pedders TrakRyder Torsion Bars will;**

- take the extra load placed on the front suspension
- not "sag"
- provide superior adjustment responses
- provide better control, stability and traction, enhancing the suspension performance

**So, how can we guarantee the above statements?**

**This is why: Pedders TrakRyder Torsion Bars;**

- are manufactured from the highest quality alloy steel
- manufacturing process is a strict production procedure
- are heat treated to maintain durability, hardness and consistency
- are of a higher rate, as the material is of a larger diameter
- ends (the splined area) are forged to produce a stronger mounting to assist in longer life

Pedders TrakRyder torsion bars are a direct replacement, therefore there is no modification necessary for their fitment.

The only thing left to do now, is to fit Pedders TrakRyder Shock Absorbers to compliment the Pedders TrakRyder Torsion Bars. This package will transform your Ford or Mazda into a vehicle that will give you the confidence in the handling and stability that you require.
