## UNDERBODY PROTECTION PERFECTION!

For most 4wd users a bull bar, side steps and rear nudge bars assist in keeping unwanted damage away, several working components located in the under body of your four wheel drive are also at risk. As you drive your off road vehicle through challenging terrain it's the under body section that cops a beating. Pedders brand new range of ASFIR 4WD skid plates offers uncompromised under body protection.

ASFIR 4wd – a worldwide brand synonymous with the development, production and distribution of off road accessories for the 4x4 and military market has teamed up with Pedders to bring you a high quality range of new skid plates for your four wheel drive. ASFIR parts are manufactured to ISO 9001:2008 standard.
