Ford	X series	Radius Rod Bush	P1069/70

Now in stock from Pedders Suspension comes the P1069/70 Radius Rod Bush for the X series Ford models.

The benefits of this new heavier rubber bush are that it helps control excess wheel Motion under braking. This also provides more consistent castor and toe angles whilst driving.

The P1069/70 is designed to reduce tyre wear whilst improving vehicle performance and handling.

The superb NVH characteristics of the bush are one of the key benefits of these bushes.
