BUSHES BUSHES BUSHES BUSHES BUSHES BUSHES

FOR THE FOLLOWING MODELS:

MAKE	MODEL	DESCRIPTION	PART NUMBER
Nissan	Patrol	Caster Camber Kits	458905 (1.0 deg change)
Toyota	80/100 Series		458906 (1.5 deg change)
	Landcruiser		458907 (2.0 deg change)
			458908 (2.5 deg change)

These four eccentric kits allow a combination of camber and caster change on late model live axle Toyota's and Nissan's by replacing the standard swivel hub bearings with an offset unit. This offset bearing allows the top of the steering axis to be moved radially thus generating a total change in both camber and castor settings.

The 458905 & 458906 both utilize OE sized bearing cones thus allowing for easy service for the future whilst still maintaining correct alignment settings.

A common characteristic of the late model live axle Toyota's and Nissan's is that they often pull to the left. These four eccentric kits solve this problem and enhance the drivability of the vehicle..
