Pedders Suspension

SWAY BAR LINKS

Pedders Suspension now have 3 choices of heavy duty sway bar links to suit the Holden VX-VY Commodores. This component is subjected to high loads that are placed on this component and Pedders Suspension is proud to make available these 3 selected heavy duty options.

Part - 424282

- Heavy duty link with rubber bushes
- Heavy duty new design bushes for better articulation and longevity
- Heavy duty rod to stop the bending commonly found on original worn links

Part - 424209

- Features specially designed polyurethane bushes to improve articulation which is a major factor in the failure of the O.E. product
- Extra Heavy duty rods to stop the bending problems that the OE link suffer from

Part - 424109

These particular Sports Ryder front sway bar links feature high performance ball socket link with alloy mounts which replaces the original rubber bushes.

- Chrome plated assembly
- Extra heavy duty link to stop bending
- Smooth articulation due to ball mounting
- Eliminates bush deflection resulting in less body roll
- Effectively increases sway bar rate by up to 12.8%
- High tensile alloy locating washers for added strength
