410114	Volkswagen	Transporter 90- On T4	F

Pedders Suspension is proud to announce the release of our expanded range of CV Shafts.

Pedders comprehensive range of replacement CV Shafts are made to exacting specifications including European SGS international quality ISO9001, QS9000, VDA6.1 and TS16949 certifications. They also come with our 2 year 40,000km nationwide warranty.

Pedders CV Shafts are complete new units - not reconditioned. This means new inner and outer joints, shafts and boots which make up a complete new unit. Many reconditioned units still contain a high percentage of second hand componentry which can compromise the integrity of their performance or durability.

For further information please contact your local Pedders expert or check out www.pedders.com.au Note: See our Pedders Suspension catalogue for up to date information.
