Pedders Coil Springs				
Part #	Make	Model	F/R	Description
220070	Toyota	Aurion 12-On GSV50	F	SportsRyder Lowered Spring
220071	Toyota	Aurion 12-On GSV51	R	SportsRyder Lowered Spring
230071	Toyota	Aurion 12-On GSV52	R	Rear Spring Standard

Pedders have just added SportsRyder lowered coil springs and standard ride height coil springs to suit the Toyota Aurion 2012-On model.

Pedders produces its coil springs in Melbourne Australia to the highest possible standards following ISO 9001 International Standards, ISO 14001 International Standards & AS/NZS 4801 Safety Standards. All Pedders coil springs are produced according to a strictly controlled design, manufacturing and testing process that ensures Pedders' coil springs exceed original tolerances and are equal to or exceed the best in the world in consistency of rate, loaded height and reliability. This insures a quality product in every coil manufactured.

The fitment of 22070(front) and 22071(rear) SportsRyder lowered coil springs into the Toyota Aurion provide a great lowered look. Increased spring rate provides improved handling for a sporty drive. As a further choice for those need to get more out of their Toyota Aurion Pedders now offer the 230071(rear) coil spring. This particular heavy duty coil spring offers a standard ride height with increased spring rate and is best suited for vehicles that carry extra loads or tow on a regular basis.

Quality without Compromise

- Premium quality grade steel
- Stress relieved and 100% QA inspected
- Load height tested
- Lowered appeal unbelievable feel
- Heavy duty units provide precise spring rates needed for ride control
- 2 Year/40,000km warranty
