PAN HARD ROD SPHERICAL PIVOT JOINT

PART #	MAKE	MODEL	DESCRIPTION
4317	Nissan	Patrol 98 - GU Wagon, Ute (Coil & Leaf)	Panhard Rod Spherical Pivot
4317	Nissan	Patrol 98 - GU Wagon, Ute (Coil)	Panhard Rod Spherical Pivot

Pedders Suspension is proud to release the 4317 Panhard Rod Spherical Pivot Joint which is suitable for the 97 Nissan Patrol GU Wagon & Ute.

The Pedders 4317 is a replacement spherical pivot joint for the panhard rods located on the front and rear suspension of the GU Patrol. This is a non serviceable item from Nissan and can only be purchased as a complete panhard rod. The Pedders 4317 is a much more affordable replacement item.

Please note, the 4317 provides better articulation than aftermarket replacement rubber/urethane bushings due to the fact that the replacement aftermarket bushes have a certain amount of flex. The Pedders replacement 4317 is a positive position spherical pivot joint (as is OE) which also provides excellent articulation necessary for both on road and off road use. Thus the 4317 provides more accurate positioning of both the front and rear axle.

For further information please contact your local Pedders Suspension Specialist or check out www.pedders.com.au Note: See our Pedders Suspension Catalogue for up to date information.
