Pedders Suspension Australia's number 1 shock absorber steering and suspension specialist has recently expanded its range of rubber shock mounts.

Of special interest comes the Pedders 5894 rear shock mount to suit the Ford Falcon/Fairlane models from 02-08. Featuring a voided rubber bush, metallastic design the 5894 rear shock mounts are great for reduced NVH. The 5894 suits the Pedders Suspension replacement shocks for this vehicle.

Also released comes the 580047 & 580048 strut mounts to suit the Holden Astra, Barina, Vectra and Zafira models (see above for fitments). Featuring an OE style heavy duty bonded rubber design these strut mounts come complete with a replacement thrust bearing. These are an ideal replacement for the original unit that in our experience is prone to failure. The new Pedders 580047 & 580048 provides good noise suppression and returns ride height from sagged original mounts.
